Introduction

This Specification contains necessary information for both candidates and Approved Programme Providers (APPs) about the WSET Level 2 Award in Wines.

The main part of the document is a detailed statement of the learning outcomes for the Level 2 Award in Wines. These outcomes should be used by APPs to prepare programmes of learning, and by candidates to plan their studies, because the examination is specifically set to test these outcomes.

The Specification also provides a list of recommended tasting samples, guidance concerning the examination (including weight of the learning outcomes content), sample examination questions and the examination regulations.

At the end of this document you will find information on the other WSET qualifications and WSET's qualification division, WSET Awards.

Introduction to the WSET Level 2 Award in Wines

Qualification Aims

The WSET Level 2 Award in Wines is intended for people who have little or no prior knowledge. It is suitable wherever a good level of wine knowledge is required to underpin job skills and competencies, for example in the customer service and sales functions of hospitality, retailing and wholesaling industries. It is also useful for those who have a general interest in wine and wish to broaden their knowledge.

Successful candidates will be able to describe and compare the styles of wines produced from internationally and regionally important grape varieties, interpret wine labels from the main wine-producing regions of the world and give basic guidance on appropriate selection and service, as well as understand the principles of wine tasting and evaluation.

Qualification Structure

Learning Outcomes

In order to meet the qualification aims there are six learning outcomes.

- Learning Outcome 1** Understand the environmental influences and grape-growing options in the vineyard and how these will impact the style and quality of wine.
- Learning Outcome 2** Understand how winemaking and bottle ageing influence the style and quality of wine.
- Learning Outcome 3** Understand how environmental influences, grape-growing options, winemaking and bottle ageing influence the style and quality of wines made from the principal grape varieties.
- Learning Outcome 4** Know the style and quality of wines produced from regionally important black and white grape varieties.
- Learning Outcome 5** Understand how the production process can influence the styles of sparkling and fortified wines.
- Learning Outcome 6** Understand the key principles and processes involved in the storage and service of wine, and in the pairing of food and wine.

Enrolment

There are no restrictions on entry to the WSET Level 2 Award in Wines.

Please refer to 'Examination Regulations Entry Requirements' for additional eligibility information.

Total Qualification Time (TQT) and Guided Learning Hours (GLH)

TQT is an estimate of the total amount of time, measured in hours, that a learner would reasonably need to be able to show the level of achievement necessary for the award of a qualification. It is made up of GLH and private study time. GLH include all tutor-supervised learning and supervised assessments.

The TQT for the Level 2 Award in Wines is 28 hours. This is made up of 17 GLH (of which 1 hour is for the examination) and 11 hours' private study.

Recommended Progression Routes

Examinations are conducted by WSET Approved Programme Providers (APPs). APPs must comply with the WSET policies and procedures set out in the APP Handbook.

Assessment Method

The WSET Level 2 Award in Wines is assessed by a closed-book examination that consists of 50 multiple-choice questions, to be completed in 60 minutes.

All examination questions are based on the published learning outcomes, and the recommended study materials (*Wines: Looking Behind the Label*) contain the information required to answer these questions.
